Focus on employee **safety**
with real-time travel data from Sherpa

Rocketrip's new features help support your duty of care to manage Covid specific rules and constantly changing regulations.

Powered by **sherpa°**

We've partnered with Sherpa to provide real-time destination updates on Covid-19 safety, health protocols, and more allowing your employees peace of mind as they return to travel.

Our traveler dashboard shows the whereabouts of your travelers in real time and provides helpful information. **Up-to-date information for vaccinated and unvaccinated travelers including:**
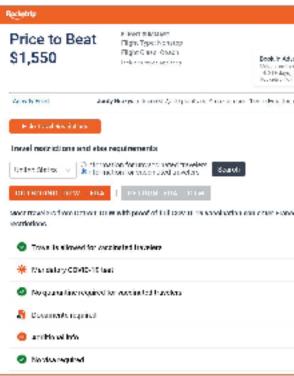

- Entry restrictions per destination
- Covid test rules
- Documents required
- Visa expectations
- Quarantine requirements

We integrate traveler behavioral data with your online booking tool and TMC data for custom reports.

You'll have access to:

- Detailed spend by department, route, and traveler
- Real-time visibility into active trips and traveler locations
- U.S. government travel alerts to monitor emerging or ongoing risks
- Customizeable alerts for tracking spend above policy

See a Cleanliness Report for each Airline and Hotel in Real-Time!
